

Steven Cabezas Rodríguez

Software Engineer

Professional Profile

As a software developer, my main goal is to create efficient and ingenious solutions that contribute to technological advancement. I have a solid foundation in software development principles and am constantly seeking opportunities to learn and grow in this field.

Furthermore, my experience allows me to adapt to different projects and challenges.

I value collaboration and teamwork, deeply believing that training, idea exchange, and contribution are key factors in achieving success. I am motivated to work alongside talented professionals, where I can contribute my skills and learn from others. I am a professional committed to continuous learning, self-discipline, and adaptability to processes, always focused on achieving satisfactory results.
